					maiden name Stuczynski. She has had 5 evictions in Volusia County in the past two years, including this one. Her lease began Feb. 1st. That was the only month she paid rent. She got assistance for 1/2 the rent in March, and never paid another dime. We couldn't reach her, she wouldn't answer texts or emails. Until we put a 3 day notice on the door April 4th. Then we got 80 some odd pages of texts, threats, etc in just a few days. The phone messages were horrendous. She kept clogging up the toilets claiming that was why she wasn't paying the rent, and when that didn't work, she said there were rats. After that she claimed my husband had sexually assaulted her. With still no response out of us, she made a false police report out against my 72 year old mother claiming that she had pushed her down some stairs, and paid \$5 to a disabled man to say that he had witnessed it. Her letter to the court didn't work, and then she filed for an extension to pay the rent into the registry, and never did. She stayed up till 30 minutes before the sheriff came to give us possession and when we were let in, we found (with the sheriff as witness) that she had stopped up the sinks (3 of them and had the water running full blast, along with the washer hook up faucet, so the floors were flooded. She took a hatchet to the real wood cabinets in the kitchen, and every wooden bi-fold door in the house. She bent every curtain rod and used them to dig holes in the sheetrock. She busted a new digital a.c. thermostat off the wall, and apparently took it with her, as we never found it. She pulled the end of a new tub enclosure off the wall, and cut every window blind in the house, which was several. She destroyed the pieces of furniture we had let her use and threw them out in the yard, along with mirrors and pictures that were on the walls, as well as the curtains. She left the place only when the sheriff arrived for the 24 hour eviction. The place was filthy.
